

Extension of Preliminary Results

The Department initiated this administrative review on October 30, 1997 (62 FR 58705). Under section 751(a)(3)(A) of the Act, the Department may extend the deadline for completion of an administrative review if it determines that it is not practicable to complete the review within the statutory time limit of 365 days. Because of the complexity and novelty of certain issues in this case, it is not practicable to complete this review within the statutory time limit of 365 days. The Department, therefore, is extending the time limit for the preliminary results of the aforementioned review to August 3, 1998. See memorandum from Maria Harris Tildon to Robert S. LaRussa, which is on file in Room B-099 at the Department's headquarters. The deadline for the final results of this review will continue to be 120 days after publication of the preliminary results.

This extension of time limit is in accordance with section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations.

Dated: May 14, 1998.

Maria Harris Tildon,

Acting Deputy Assistant Secretary, AD/CVD Enforcement Group II.

Atlantic Shark Fisheries; Notice of Availability

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: NMFS announces that the Highly Migratory Species Management Division has prepared a final document considering the economic effects and potential alternatives to the 1997 quotas on the Atlantic large coastal shark fishery, as ordered by the Middle District Court of Florida, Tampa Division, on February 26, 1998.

ADDRESSES: Requests for copies of the final document should be sent to Margo Schulze, Highly Migratory Species Management Division (F/SF1), National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT:

Margo Schulze or Karyl Brewster-Geisz, 301-713-2347; fax: 301-713-1917.

SUPPLEMENTARY INFORMATION: The fishery for Atlantic sharks is managed under the Fishery Management Plan for Sharks of the Atlantic Ocean prepared by NMFS under authority of section 304(g) of the Magnuson-Stevens Fishery Conservation and Management Act, as amended, and was implemented on April 26, 1993, through regulations found at 50 CFR part 678.

On April 2, 1997 (62 FR 16648), NMFS reduced the large coastal shark commercial quota and recreational bag limit by 50 percent as proposed, with an exception for an additional recreational allowance of two Atlantic sharpnose sharks per person per trip. The prohibition on possession of white sharks was modified to allow for a catch-and-release-only recreational fishery. Otherwise, all measures were implemented as proposed. Partly because NMFS received comments that indicated the proposed measures may have a significant economic impact on a substantial number of small entities and because it wanted to ensure that the impacts were thoroughly analyzed, NMFS prepared a Final Regulatory Flexibility Analysis (FRFA) that assessed the economic impacts of the regulation on small entities engaged in the Atlantic shark fishery in the final rule. In that FRFA, NMFS reaffirmed its
